OFF-GRID Expo + Conference

OFF-GRID Expo + Conference

December 7 – 8, 2023

OFF-GRID TechDay

December 6, 2023

Off-grid solar, wind and hydropower systems and self-sufficient power supply

Messe Augsburg / Germany

Do you know this unique event for off-grid products and services?

- ✓ **THE only congress fair in Europe** that is purely focused on off-grid with renewable energies – live in person in Augsburg
- ✓ **THE annual network happening** of the international community at the end of the year: More than **60 exhibitors** of 12 countries, **900 participants** from 37 countries (OEC 2022)
- ✓ **Off-grid portfolio** of exhibitors and visitors from the entire value chain
- ✓ Great opportunity to meet potential employees and to recruit young talents and graduates of universities
- ✓ The focus of the range of offers follows the UN Social Development Goals **SDGs 6+7**

- 6 NEW: Open access**
Hall 1 at Messe Augsburg – the modern venue with short ways to all offers

All visitors can benefit benefit from the TechDay & the Expo+Conference – **just one ticket for all**

We are here at the OFF-GRID Expo + Conference the fourth time. It is a very great meeting for all expert companies in this field. This is the reason, why we are here: To meet all the people, who have interest in this specific topic. We are very proud to be here to present our newest product. What is very appreciable here, is that the people are involved in this specific topic "green energy"– it's not like some general exhibition. Here can we focus on what is interesting for us and the public.

Energy Production	Energy Storage	Distribution & Management	Energy Use
<ul style="list-style-type: none"> - Biogas - Bioenergy - Geothermal - Hydropower - Photovoltaic - Solarthermal - Small Windenergy 	<ul style="list-style-type: none"> - Cold Storage - Energy Storage Electricity - Energy Storage Heat - Energy Storage Salt - Fuelcell - Hydrogen Storage 	<ul style="list-style-type: none"> - Back-Up - Maintenance - Mini-Grids - Micro-Grids - Monitoring - Software - Stand-Alone 	<ul style="list-style-type: none"> - Agri PV - Commercial & Industry - Cooling - Desalination / Drinking water - Entertainment / Communication - E-mobility - Institutions (Health, education ...) - Lightning - Pumping
Financing	Cross Services	Policy	Education & Science
<ul style="list-style-type: none"> - Bitcoins - Crowdfunding - Carbon Credits - Financial Support - Pay-as-you-xx - Public & private Investors 	<ul style="list-style-type: none"> - Planing - Project control - System design 	<ul style="list-style-type: none"> - NGOs - Public Organisations - Stakeholder-Involvement 	<ul style="list-style-type: none"> - Institutes - Research - Training - Universities

For us to be here in Augsburg at this Expo, directing with other companies and developers in the same space is just an honor, especially exchanging ideas and talking to people about experiences in the off-grid sector.
